

## KNOW POSLAM'S RARE POWER TO HEAL ECZEMA

You can make no mistake in using Poslam, first and for all, to treat Eczema or any Skin Disease. It is the remedy of concentrated healing properties. Apply it right on the raw places that burn and itch; they will be pacified, soothed, cooled and will no longer harass. Poslam has been considered a rare "find" by many who never knew just what to use to secure real and lasting relief for ailing skin. Shortest way to eradicate Pimples, Rash, Inflammation.

Sold everywhere. For free sample write to Emergency Laboratories, 243 West 47th St., New York City. Poslam Soap, medicated with Poslam, should be used if skin is tender and sensitive.—Advt.

## DRAFT ARMY MEN TO FILL LEFT OVER GUARD REGIMENTS

Seven Organizations Not in  
27th Division to Form  
Two Brigades.

(Special from a Staff Correspondent of The Evening World.)  
SPARTANBURG, S. C., Nov. 9.—There was great joy in the camps of seven regiments when it became known to-day that the units left out of the 27th Division are to be formed into two brigades. The regiments affected by the new order are the 12th, 14th, 15th, 16th, 17th, 18th and 19th.

When the 27th Division was reorganized and brought up to full war strength a few weeks ago, the 12th, 14th, 15th, 16th and 18th Regiments were reduced to skeleton formation. They now possess barely 200 men each.

These five skeleton units will be formed into the Second Temporary Provisional Brigade, and will be commanded by Col. William G. Bates of the 15th. The 14th Brigade will be composed of the 12th of Brooklyn, and the 18th Regiment, under command of Brig. Gen. William Wilson. The latter two regiments have been but slightly drawn upon and together have about 2,000 men and officers.

Since the great draft was levied upon them, the 12th, 14th, 15th and 18th Regiments have been somewhat what parish organizations. All efforts have been centered upon the 27th Division and the officers and men of the striped organizations have felt that it was only a matter of time until they would be completely dismembered. Today, however, their spirits have been raised and they feel that the time is not distant when their vacant ranks will be filled with men from the Draft Army at Yaphank.

However, another explanation made for the new formations is that the administrative work of the seven units can be better conducted if they are in brigade formation. The officers of the 12th and other skeleton units are largely buoyed up by the War Department memorandum which stated that they were not to lose their identity nor traditions.

A fear who could forecast the fate of these lone regiments would earn his weight in silver if not greenbacks if he would bring his crystal into camp and peer a bit.

To many soldiers it seemed as though the camp had been visited by a heavy earthquake this morning, but it turned out to be the officers' bomb class at practice back of the old 7th Regiment. The officers have been taught how to make grenades and are no more nervous in handling TNT, that explosive of explosives, than they are in handling molasses. The officers are stationed behind a board screen representing a trench wall and at a given command they light the fuses and hurl the deadly missiles over the top for given distances.

The shock of the explosion can be felt for almost 200 yards and the pieces of metal in the grenades scatter about in a radius of thirty yards. British and French officers, fresh from the trenches abroad supervised.

## After Many Remedies— Internal Baths

Mr. Joseph Rosenbaum writes Dr. Chas. A. Tyrrell of New York as follows: "For many years I was a sufferer from Rheumatism, Neuritis and Constipation, and after trying many remedies I purchased your 'J. R. L. Cascade.' Have been using it ten or twelve years and find it most beneficial. All the above ailments have disappeared and I now enjoy excellent health."

You can help Nature's most effective way, by internal bathing with the "J. R. L. Cascade," and in an easy, non-habit forming manner keep the intestine as sweet and clean as Nature demands it to be for perfect health. Over half a million keen, bright, healthy Americans testify to its results.

It is the invention of Dr. Charles H. Tyrrell, M. D., of New York, a specialist on internal bathing, and is now being shown and explained by all Leggett's Riker-Hegeman Drug Stores in New York and Brooklyn. They will be glad to give you free on request booklet, by Dr. Tyrrell, "Why Man of To-Day Is Only 50% Efficient," which is most interesting, and will tell you facts about yourself that you have never before realized.—Advt.

the work and complimented the New Yorkers for their throwing accuracy. Efforts are under way for the staging next Sunday of the biggest ceremony of the Catholic mass ever held in this section of the South. At present 4,000 of the 12,000 Catholic soldiers in the division have signified their intention of attending. The mass will be held in the grove of the Catholic Church in Spartanburg. Bishop W. J. Russell of South Carolina will preach and Father Tyson of the 14th Regiment, assisted by Father Murphy of Spartanburg, will say the mass. The soldiers will be taken to town in special trains and, headed by the band of the old 7th Regiment, will march to the church grove. The band will furnish the music for the worship.

A great Christmas celebration is being planned for the soldiers of Camp Wadsworth, and it is expected that 250 Christmas trees, suitably decorated, will be set up about the reservation. It will take several carloads of turkeys and the other necessities for a Christmas celebration to feed the boys, and the Commission on Training Camp Activities is urging the friends of the boys to assist in every way to make the celebration a success.

Great stress in the new schedule of training is being given to rifle work and sub-machine gun practice. It is planned to send the first of the artillery units to the range to begin the big gun work. Three non-commissioned officers in L. Company of the old 7th Regiment have been ordered discharged from the service that they may accept commissions as Second Lieutenants of Infantry in the army. The fortunate soldiers are Sergeant H. M. Ladd and Corporals John G. Davis and Wayne Marshall.

The body of private George Wise of Manhattan, who died last night in the base hospital, as a result of illness, is being held to await the arrival of members of his family. Private Wise, who was nineteen years old, was a member of C Company of the 16th Infantry, formerly the 23d of Brooklyn.

## FORD TO DEVOTE PLANT SOLELY TO WAR WORK

Will Make No More Pleasure Cars Until Great Contest Is Over.

WASHINGTON, Nov. 9.—No more pleasure cars or commercial trucks will be built by Henry Ford until after the war. He will devote his entire plant to the production of war necessities, tractors, ambulances, aircraft engines and shells.

Mr. Ford recently offered to discontinue the production of pleasure cars and his offer was gladly accepted by the Government. The shortage of chrome vanadium steel, needed vitally for shells and aeroplane engines, has caused uneasiness among those responsible for war preparations. The Ford plant in Detroit uses in peace time approximately 200,000 tons of chrome vanadium steel a year. All this will now go into war work.

The transportation situation is such that the railroads are unable to haul sufficient coal for both non-essential and essential industries. Mr. Ford is receiving the highest praise for his frank facing of this situation and his action in "doing his bit" to reduce the non-essential demand for chrome steel, coal and freight cars.

Otto Kahn at White House.  
WASHINGTON, Nov. 9.—Otto H. Kahn, head of Kuhn, Loeb & Co., called on President Wilson yesterday. He said his visit was for the purpose of talking over the economic condition of the country.

## HORRORS IN SERBIA REVEALED BY DUTCH

Germany, Austria, Hungary and Bulgaria Charged With Atrocities.

WASHINGTON, Nov. 9.—The Dutch branch of the League of Neutral Countries has just published a circular describing atrocities committed in Serbia by Austrians, Magyars, Germans and Bulgarians. The circular says:

"We have numerous documents at our disposal. We have submitted all these to a most searching criticism, such as is always applied to historical documents. And after all this we do not hesitate to bring the strongest charges against the Austrian, Hungarian, German and Bulgarian Gov.

ernments." The circular is signed by the permanent committee of the league—J. F. Niemeyer, professor of the University of Utrecht, President; de la Fay, Secretary for Home Affairs; Duenbrook, Secretary for Foreign Affairs.

## Compare Christine Miller's Voice on a Talking Machine and on the New Edison

Judge for Yourself

Here is an interesting and conclusive test which you may make yourself. Come to the Edison Shop and ask us to play Mr. Edison's Re-Creation of the famous ballad "Old Black Joe" as sung by Christine Miller, the noted concert contralto. Then go to any talking machine representative and hear the same song by the same artist as it is reproduced by the talking machine.

Having done this, judge for yourself. Mr. Edison's new art needs no better demonstration than such a comparison. Make this simple test before you decide.

Program of Music's Re-Creation  
in Our Recital Hall—Tomorrow  
Musical... Edison Concert Band

## Studebaker TRADE-IN-SALE

---we can see the end of this sale---  
got almost all the used cars we  
can handle. Have YOU been in?

## You can actually make money by trading in your car today

And you will practice genuine economy by doing it. A careful inquiry into the comparative values of Studebaker cars at present prices and the probability of all new car prices going sky high after the first of the year, will prove to you that now is the time to make a trade-in as an investment.

No matter if you don't expect to use your car this winter, you'll be sure of a fine new car next spring, if you secure it now. You will, in all probability, save from \$800 to \$500.

There's bound to be a shortage of fine cars before spring—and what cars there are will perhaps rise 50 per cent. in price. That's what well-informed observers tell us. War conditions have brought about this condition in England and there's

every reason to suppose it will be duplicated here. Our advice to all our friends is to trade in their old cars now.

Just now we can make you a wonderfully attractive offer because we still have a waiting market for a very few good used cars. We have now practically all the used cars we can handle.

Tomorrow may be too late for you to make your trade.
